Four Boys Killed at the Institution for the Feeble Minded.

Farty of Twenty-One Takes Shelter to an Old Cow Barn—The Structure is Blow Down, and Four are Killed and Several Injured.

LINCOLN, Ill., June 18. - At 8:45 p. m.,

ollowing two days and one night of ntense heat, with the murcury ranging from 82 to 100 degrees, a terrible storm passed over this city and county, ausing loss of life and property. The grounds of the state institution for eeble-mined children and the farm connected therewith received the full force of the storm. At the institution the roofs of the north wing, the custodial building and the powerhouse were partially blown off, and a dozen age walnut and elm trees were twisted and thrown around like straws in an angry flood. The loss to the state is heavy, but there was no loss of life. At the farm, two miles south of the natitution, a large cow barn, constructed in 1894 at a cost of \$3,000, collapsed like an egg shell in the hand of a strong man, catching 26 boys and two men, killing four and severely injuring and took shelter under a cattle guard.

The dead are: Sylvester Baker, age 15. James O'Brien, age 12. Neal McKenzie, age 13. Castle Le Baron, age 16. All of Chicago, and pupils of the in

The injured are: Jacob Wilmert, farm superintendent, hurt about the head and believed to be fatally injured. Lemuel Gleason, class attendant,

back and lower limbs injured. Henry Berger, Willie Withem and Willie Fisher, pupils, severely, though not dangerously, hurt.

At nine o'clock this morning William Schellpepper, an attendant, was or-iered to leave the institution and take

Il boys to the farm to pick peas, but teclined, and tendered his resignation, to which incident he probably owes his life. A substitute was secured in or transport any stock affected with the person of Lemuel Gleason, who, that disease from one state or territory with the 21 boys, departed on what to another. It is also a violation of eft in high giee with baskets tion to any railrond company or master packed with good things to cat, or owner of any boat or any vessel, performed their work on the any sheep knowing them to be affected farm with cheerfulness, and at two with the centagious disease referred relock were given permission to go to to; and it is also unlawful to drive on the creek near by and indulge in bathog. The storm came up suddenly, and, by command of their attendant, the another any sheep so affected. rowd ran to the barn for shelter. Phils was a huge structure, 174x28 feet. on a cheap plan, with box sills are requested to co-operate with the de the death trap than the wind struck it, laws for preventing the spread of the and the entire building fell in. There

saved several by his bravery and coolness. Oblivious of his own safety, he rescued several, and was found on top of a boy, pinioned down by timbers, saving the boy, and receiving severe injuries himself. The farm superintendent, Jacob Wilmert, left the barn when struck by the storm, and was struck down by flying timbers.

The storm came from the northwest at a time when the mercury marked 94 legress. A great bank of clouds came rolling and tossing like a huge sea biliow, rising and falling as it swept along, obscuring vision by a cloud of fust, and followed quickly by one of the hardest downfalls of rain of 20 minutes' duration ever seen in this county. The storm appeared to be in two ections, dividing a few miles west of the institution, in which are nearly 100 inmates, including officers and atsendants. The division of the storm's orces alone saved the institution from emplete destruction and a dreadful tosa of life and property. The officers of the institution, Doctors Atherton and Barnett, superintendent and assisant superintendent, and Chief Clerk Whitlook were on the ground early saring for the injured, looking up those that escaped and directing the removal of the dead. The storm is reported to nave been severe in the country, with probabilities of severe destruction of property and life. In the city the loss

The Earthquake in Monterey County, California.

The Congregation in the Mission Chur-of San Carlos, Moneterey, Thrown Into Temporary Panic by a Falling Wall.

SAN FRANCISCO, June 23.-Late reports regarding the earthquake show that it was quite severe at Salinas, the county seat of Montercy county. The more important buildings damaged are the armory of Troop C, the walls of which are badly cracked and parted; the Nance building, in process of con-struction, will have to be taken down. and the Farmers' Union building. The latter had an old crack in the front, which is opened four inches for the length of several feet. In the interior of the latter building, bricks fell and plastering was damaged.

The Salinas hotel, the Jefferey, Abbott and Bardin houses, all suffered more or less, windows being broken and walls cracked. In the leading merchandise houses large plate-glas windows were broken. On the residence streets, chimneys were broken down and windows amashed.

The post office building was cracked on its front. Public halls are injured to a great extent. The city hall has been seriously injured in plaster, and the courthouse has suffered.

The old brick Salinas hotel was cracked across the top. There were over 75 windows broken in the Bardin ouse, and in over half the rooms the walls are cracked. At Graves' switch the wareho

uined, and the huge railroad tank alnost emptied of its contents.

A section of adobe wall in the Mission church of San Carlos, in Monterey, tumbled in on the congregation, and a panie almost resulted.

Congregations were at worship various towns when the shock oc-curred, and in some churches panies were avoided by the cool headedness of the minister. A record of the shock was made at the Lick observatory.

Fifteen Months Will Depopulate the Western Provinces

The Trocha a Pestilential Ditch, and the Vitality of the Pacificos So Low Vaccination Generally Proves Abortive.

NEW YORK, June 21 .- A dispatch to the World from Havana says:

Extermination on the Island is at appalling, actual fact. The death rate is actually increasing. A prominent Spanish medical officer, who has full knowledge of the interior, says that should the war be prolonged months the western half of the island will be entirely depopulated. The death rate is likely to double next month. Contagion will then mow the people down rapidly. The rains have turned the interior into quagmires in many places. The trocha is a pestilential ditch. The soldiers are suffering terribly from fever and dysentery. Little of the smallpox vaccination is effective. With fore sight thousands of pacificos might easily have been saved by vaccination A sanguinary engagement occurred Wednesday at Managua, 15 miles from Havana. The insurgents attacked

pressed here. Many ambulances with wounded have arrived here. The rebels are certainly concentrat ng around Havana. Trains have beer fired into repeatedly. A Spanish force while reconnoitering, was ambushed near San Miguel. They fought brave
